CARSON CITY:

THE CAR SHOPS are not yet so old or of such an every day and passe sort as that they are not a pleasant field for the probings of the curious or a profitable mine for the working of the enterprising news-reporter. We were there for a leisure ten minutes yesterday and noticed that the engine room was much smartened up with paint and varnish; that the new iron planing machine was securely archored upon its foundations; that the steam hammer was in its place in the blacksmith shop; that cunning hands were at work adjusting the belts and other gear; that the "Reno" was still in the dry dock; that the car-factory had been receiving a lot of building materials; and that there seemed to be a general air about the place as of a get-ting in readings for active operations. A hugely commodious, broad guage in-stitution is this—ail round—lots of room between lath s and thines, and abundant opportunities for keeping tools in order and handling the things that will come there to be made and reconstructed. As the anatomist said when he laid away an old and inte esting deal heal in a pickle jar, we shall refer to this subject again.

John Stewart the mon who has been locked up in our County July for safe keeping, and who was taken to Aurora guage and references were we to commit the same to the immortality of type. (This hint of the nature of this document will not, we hope, excite any curiosity on the part of our male readers to see it. The ladies, God bless them, see F. The latters, that to start contacts.)
Suffice it to say that Mr. Stewart who
doubtless has a vague and uncomfortable
notion of being hanged, warns the malefactory world that unless a rigid compliance is awarded to certain sumptuary regulations, (which are of rather a privy nature,) his "gost" (that's the way he spelt it,) would come back there and hant em.

Some Changes in the time table of the C. P. R. R. are made public in a recontructed adv. in to-day's APPEAL. ExaBaine it.

LIPMAN'S HAIR restorative is duly advertised in to-day's number of the Appeal. Read it, throw away your wig and try some.

WE learn from R. Fred. that Mrs. Brooks having accomplished her purpose in San Francisco is about to return home and will be ready to resume her old business (millinery) in Carson, by the first of December next,

Normino more serious done by our vigilant peace preservers yesterday than the arrest of a slightly mortified stiff who had made his unbecoming bed on the walk near the corner of King and Carson streets.

Mr. Woods' Church has become quite a popular Sanday night resort. His delivery is flowery and savers of the poetic, and pleases the popular ear. Since the foot of the law has come down on Sanday gambling, some gentlemen of the sportive profession have been attend-ing Mr. Woods' Church in the evening. Night before last quite a representation of the ton of the fraternity went to hear concerning "Jesus Christ; and Him Crucified." The plate did not pass them in any case, you may be sure, without a good square donation to the enemy of the "tiger."

THE CATHOLIC PARTY, announced for the 27th inst., is going to be fine. The ladies are all going. They are studying colors and trimmings, and beau catchers and so on till there is no time to rest. The occasion bids fair to be one of rare enjoyment. Every preparation is being made to insure the highest degree of entertainment. Moore & Parker's hall opened on the 27th for the first fanciful toe tripping of the season will be all aglow with beauty, chivalry, canvas and Maxim gas. Don't eat too much of Turkey. Put on your best legs gentlemen and luxuriate in music and dancing, and make sure of your all ation in contributing to the progress and well being of the Church.

GIVE IT UP .- The experience of a town barber is not unvaried. The life of his shop is not without its comicaliof his anop is not without its comical-ties. Fred, at the corner shop opposite the Ormsby House, got hold of an ele-phant, yesterday, in the shape of a ruddy visaged young 'on, about twenty-five years old, who had evidently had a heavy dram about his upper lip. By actual count he had not enough bristle to number nine on a side, and what spronts did appear could not be caught sprouts did appear could not be caught without nippers, and seemed to be crawlwithout impers, and seemed to be crawing back out of sight under the wood chopper's glowing hide. Said sprouts were in color a very light blonde. If their proud proprietor had asked to have black dye affixed, he might have been accommodated with a daub; but he insisted on brown, Fred told him with terms in his every that he had to give it. tears in his eyes that he had to give it

THE GRAND LODGE of Five Misons will meet in Virginia City to-morrow. As we learn by the Chronic's of last the other day, left a velodictory relates behind him when he departed. It was written in a fairly legible hand and left in his cell. Its contents do not reflect a very high state of literary or moral cut ture on John's part and we should fed constrained to clip and prune his language and references were we to commit the same to the immortality of type. This him of the nature of this docuson of Treasure City, Junior Grand Warden; V. W., Samuel W. Chubbubk Warden; V. W., Samuel W., Chubbubk of Gold Hill, Grand Treasurer; V. W., Robert H. The Grand Lodge will probably be in session for two or three days.

Police Count.-His Honor was satilelently convolescent yesterday to visit a fine of \$20 on that incorrigible toper. John Doe. John had been snoring in public as usual and this being the second offense he got a slight advance on the initial fine. The Court chart of him a twenty dollar piece which in paddiced and retreated. The sould Smullay drunks are like to be expensive.

AT PIPER'S OPERA HOUSE Shiel Durry, the famous Irish comedian, will appear to-night in "Faugh a Ballach." John, bring Barry down here, when he gets through his engagement in Virginia. It is a good while since we had any kind of a show and Barry would draw full houses for at least a week.

PERSONAL.-Mr. Edw. S. Bal. .. traveling correspondent of Crofutt's Western World of San Francisco, called at this office yesterday. He has lately made a grand tour of Arizona. Billy Byrne came in upon us, from Utah and the Mormon Problem yesterday: also the Mormon Problem yesterday Mr. Bell, of Bell & Rurke, Reno.

In answer to a quite general inquiry as to when Pierce will have his second trial, we will inform all whom it may concern that it will take place during the next term of the District Court for Douglas county which begins on the first Monday in December.

THE LOCAL commentator of the Pioche Record finds the sweet balm of consolation in conclusions of his own finding and expresses the same thuswise, to wit:

Notwithstanding the litigation that has so greatly disturbed mining operations here, Pioche still lives. The streets are not crowded with idle men, but those who are left generally have plenty to do. It is not improbable that at one time there were more people here than could find profitable employment, but such is not so now, Inyo. San Juan and other localities having drawn off a portion of the floating population. We have no desire to raise an excitement in favor of Pioche, nor yet are we trying to whistle up our courage; but we wish simply to say that Pioche is still one of the liveliest camps in the State, and that those who adhere to the fortunes of the place will have no cause to regret it. Nit desperThe Failure of the Spragues.

At the Fifth Ayenne Hotel last evening a number of Wall street gentlemen were assembled, and some interchange of opinion regarding the financial situation opinion regarding the huantesia sacutation took place. As a rule, it is safe to say that what the corridors of the Fifth Avenue hear on Sunday night the Stock Exchange rotunda will listen to on Mon-Exchange rotunda will listen to on Monday morning, and if the occasion be not an exception, the feeling to-day will be less hopeful than on Saturday. The statement of Messrs. Sprague, and of Hoyt, Sprague & Co. fails to give general satisfaction. It was the common remark last excening that they had too many assets to be really sound. One gentleman remarked that he had looked in vain through a bewildered column of gentleman remarked that are the area in vain through a bewildered column of Quidnick, Kennebee, Coburn Land and Cranston Print Companies for any proper item of bills receivable to offset liabilities on account of goods purchased. There was another who thought there was no margin on the side of the liabilities, and plenty of margin perhaps on the side of assets and spindles. What they owed was a fixed and probably not exaggerated sam while what they had to pay with was of mixed assets of a sort pay with was of mixed associated shrink-liable to an unlimited amount of shrinkliable to an unlimited amount of shrink-age in market value. On the whole there was a gloomy feeling, and the opinion that this great firm had been 'kiting' unvisely and dung millions of business on a feating paper basis was freely expressed. The length of the time asked by the Spragues was also looked unou-us an unfavorable indication of their condition, and one which outwell, hed all the complimentary resolutions of the the complimentary resolutions of the Examining Committee. It was thought that so long an extension as three years could not reasonably be demanded by equid not reasonably be dehadred by my bouse, and only indicated a vague hope on the part of the firm that by some lacky chance they might in some of their many operations "smake a big stake" during the unheard of interval. In view of the general condition of things many sceme to think that the only safe course was to let all unsound horses in every branch of trade go under, and then begin business again on a totally new basis, backed up by con-servative management, and sustained by conomical living and diminished values all account. all around.
